COM (Customer's Own Material)

- For COM (Customer's Own Material) orders, fabrication prices are same as grid pricing for Group A.
- Please email fabric and product specs to stephen@phaseii.com for fabric requirements.

Motorization

- For motorized roman shades or roller shades, contact sales@texton.com or call (800) 442-1540.

Swatches Available

- 4"x6" reference swatches are available for color, texture, and general pattern review before ordering
- Request swatches by phone (800) 442-1540

Lead Time

- Custom orders will be shipped via Fed Ex Ground to arrive at shipping address in 21 days or less
- Standard Lead Time: 72 hour cancellation period + 10 days in house + 5 days in transit + weekends

Warranty Information

Phase II stands behind its products 100%.

Any manufacturing defect will be replaced with an expedited remake.

Fabrics and mechanisms are guaranteed for 5 years, cords and rings are guaranteed for 3 years.

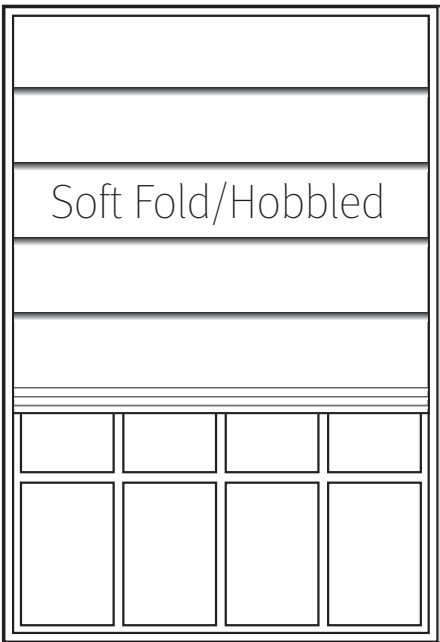

In the event of customer error, we offer a 25% discount off the original (mistake) order, as a satisfaction warranty.

Shipping damage should be reported right away, and must be reported within 30 days.

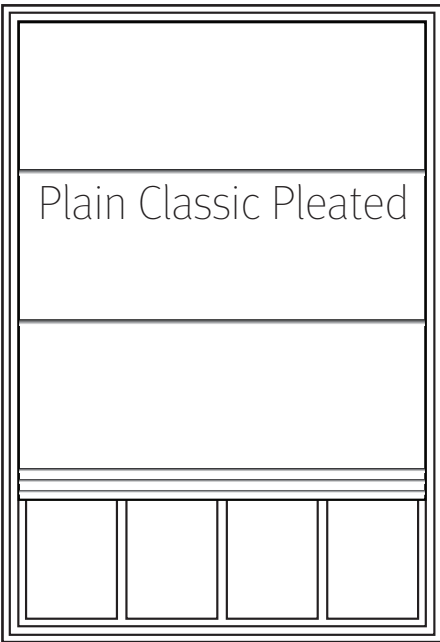

All window coverings are custom fabricated to your specifications.

Made-to-Measure window coverings CANNOT be returned unless there is a manufacturer's defect.

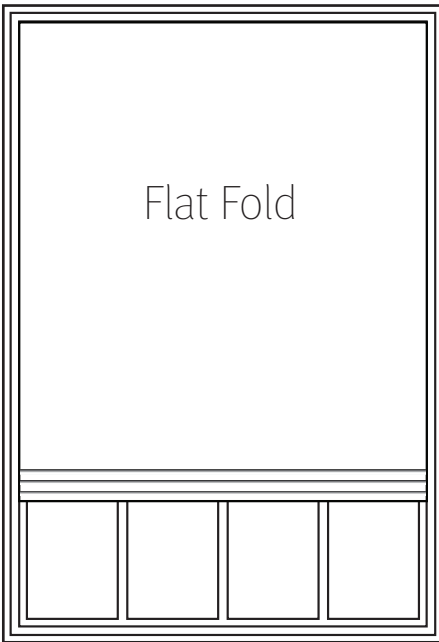

Any changes or cancellations MUST occur within 72 hours of the initial order.

PLEAT BREAK DIAGRAMS

- Built from bottom - up
- Useful for different size windows which are next to each other
- The top pleat will vary from 3" to 9 $\frac{7}{8}$ "

SEAMED ROMAN SHADES

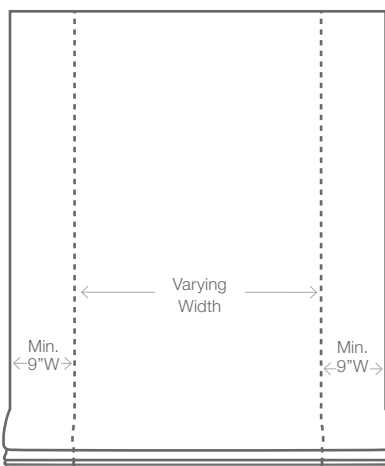

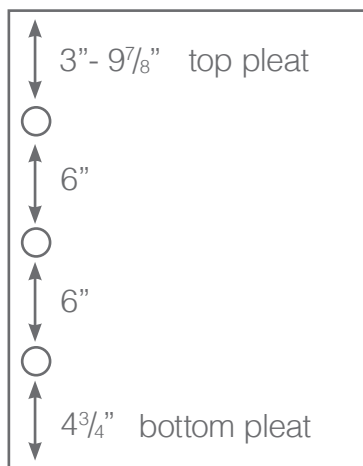

- Seamless Roman Shades are available up to a maximum of 48" wide.
- Beyond 48" wide, shades will be made with a varying width center panel and side panels seamed to a minimum of 9" wide on both sides.

PLAIN CLASSIC PLEATED or EUROPEAN/RELAXED ROMAN SHADES

INFO

- When ordering shades in one room (with similar but varying lengths), choose & order the longest length for uniformity.
Please refer to Pleat Break Point charts

SURCHARGES:

RIBBON BANDING

- Surcharge added (see p.30) for Edge or Inset Banded Trim options (not available on European/Relaxed style)

LINING

- Standard lined prices listed in grid pricing
- Add 10% for Thermal Sateen or Room Darkening Liner upgrade
- Add 25% for Premium Blackout Liner upgrade

LIFTS

- Standard cord lock rear listed in grid pricing
- See p.30 for upgrade lifts

PRE-SET or PRECISE WIDTH, FABRICS & SHEERS

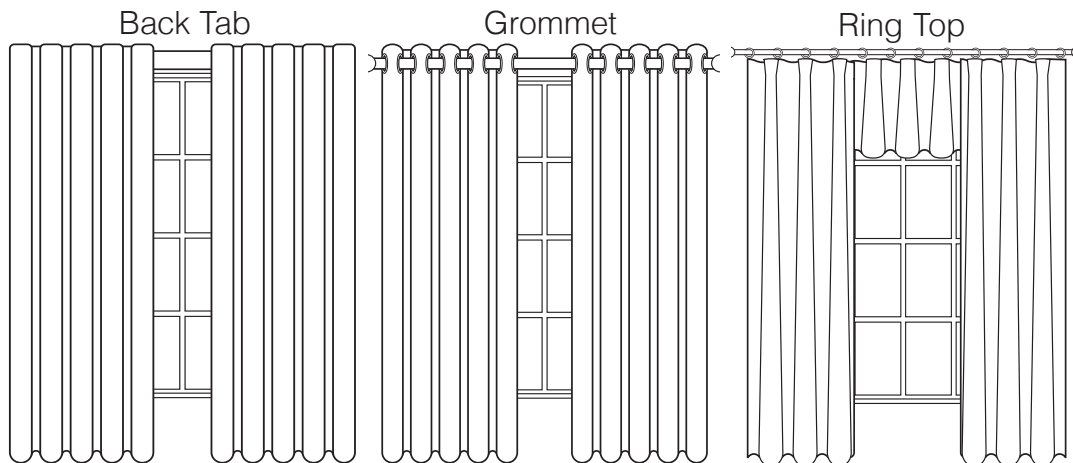

PRE-SET or PRECISE WIDTH, FABRICS & SHEERS

PRECISE WIDTH FABRICS

PRE-SET WIDTH, FABRICS ONLY

* Panels & coordinating valances come unlined.

Upgrade to Standard, Thermal Sateen, Room Darkening or Premium Blackout.

7 PRE-SET WIDTHS: ALL DRAPERY STYLES (except Soft Wave Fold Drapery & Track System)

- 10% less \$ than Precise Widths
- Easier to order
- More or less material than optimally desired – “imprecise”
- Fullness will vary depending on window width
from 180% (1.8:1 ratio), 200% (2:1 ratio), 300% (3:1 ratio)

Follow the Sizing Solutions Chart to Determine which of the seven panel widths will work for you.

PRECISE WIDTHS: PLEATED PANELS, ROD POCKETS & SOFT WAVE FOLD DRAPERY & TRACK SYSTEM ONLY (provide the wall/window area to be covered)

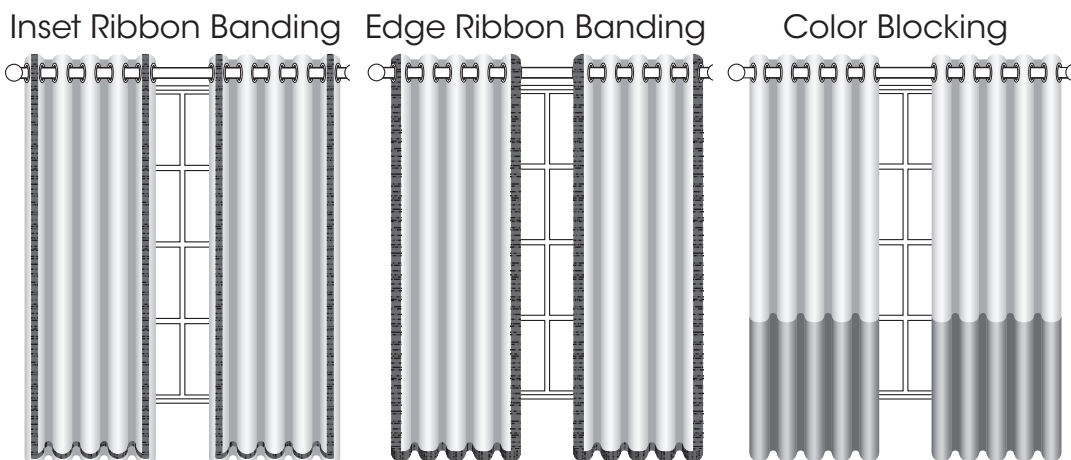

- 10% more \$ than Pre Set Widths
- Precise accuracy in panel widths
- 200% (2:1 ratio) fullness ratio for Pleated Panels & Rod Pocket Panels
- 180% (1.8:1 ratio) fullness ratio for Soft Wave Fold Drapery & Track System
- 300% (3:1 ratio) fullness ratio for Sheer Pleated Panels & Sheer Rod Pocket Panels
- First measure the bracket to bracket width of your window.
- Add overlap on Pleated Panels (NO OVERLAP ON ROD POCKETS):
 - 4” - two-way draw pair
 - 2” - one-way draw panel
 - 0” - stationary panels
- Choose none (0”) or 2” to 7” for returns:
 - Two-way draw will be applied to both sides
 - One-way draw will be applied to draw side
 - Stationary Panels will be applied to outside edge

EX: Pleated Precise Width Panels:

Window: 132”W bracket-to-bracket

- Enter your bracket to bracket measurement: 132”W
- If you have selected pair, this must include a 4” overlap
- Choose your returns: 7”, for pair $\times 2 = 14$ ”

Add these together: $132 + 4 + 14 = 150$ ” Total Finished Width (Total Finished Width determines price)

Drapery Panel OPTIONS Upcharges (must call for assistance - see P.4)

WIDTHS DEFINED*

Pleated Drapery:

1 width = 24"W
2 widths = 48"W

All other Drapery Styles:

1 width = 50"W
2 widths = 100"W

Example: Adding Memory Stitch:

Pair of Pleated Panels to cover a 68"W area ÷ 24" (single panel widths) = 2.83 widths approx. 3 widths
Round up to 3 x \$46 = \$138

Ribbon Banding	Rayon Solid	Greek Key
	\$24/linear foot	\$36/linear foot
Color Block	\$146/width*	
Memory Stitch	\$46/width*	
Beaded Weight Chain	\$46/width*	

Ribbon Banding

- 100% Rayon solid color ribbon - 2" wide
- 8 colors available
- Greek key ribbon - 2 1/4" wide
- 6 colors available
- Inset = 2" in from edge (left, right, bottom)
- Edge = along the edges (left, right, bottom)

Color Blocking

- Color block is an option for all drapery panels
- Choose 2 colors of the same fabric
- Select a main color/select a color block color
- Indicate if color block fabric is top 1/3 or bottom 1/3
- Upcharged by the width
- Additional option: add banding across the width (upcharged by the foot): choose Rayon Solid Color ribbon or Greek Key ribbon

INFO

- Panels are delivered with approximately 2:1 fullness
- Total finished width = bracket to bracket width + overlaps + returns
- Overlap:
 - panels/one-way draw: add 2" to the bracket-to-bracket width
 - pairs/two-way draw: add 4" to the bracket-to-bracket width
- Returns:
 - on panels/one-way draw, returns will be added to one side only
 - on pairs/two-way draw, returns will be added to both sides
 - returns x 1 = panels
 - returns x 2 = pairs
- For wider panels, add 96" column to the column which provides the additional width needed
- For longer panels, add 12.5% for up to an additional 50", add 25% for up to an additional 100"

* 6"L Parisian Pleat Coordinated Valance cannot be ordered less than 9"L.

Pre-Pinning Surcharge: \$36

4 pre-pinned setting options:

- Luxe Track/Rod (1/4" down from top)
- Decorative Rod (1/2" down from top)
- Ceiling (1 1/4" down from top)
- Traverse Rod (1 3/4" down from top)

INFO

- Panels are delivered with approximately 2:1 fullness
- Total finished width = bracket to bracket width + overlaps + returns
- Overlap:
 - panels/one-way draw: add 2" to the bracket-to-bracket width
 - pairs/two-way draw: add 4" to the bracket-to-bracket width
- Returns:
 - on panels/one-way draw, returns will be added to one side only
 - on pairs/two-way draw, returns will be added to both sides
 - returns x 1 = panels
 - returns x 2 = pairs
- For wider pairs, add 192" column to the column which provides the additional width needed
- For longer panels, add 12.5% for up to an additional 50", add 25% for up to an additional 100"

SURCHARGES

RIBBON BANDING • For ribbon banding, email sales@texton.com

COM • For COM (Customer's Own Material) orders, email sales@texton.com

Unlined prices listed in grid pricing

- LINING
- Add 15% for Standard Liner upgrade
 - Add 25% for Thermal Sateen or Room Darkening Liner upgrade
 - Add 30% for Premium Blackout Liner upgrade

PRECISE WIDTH PLEATED PANELS

NUMBER OF PLEATS BASED ON WIDTHS ORDERED

- From 96 $\frac{1}{8}$ " - 192", must be 2-way draw
- To determine the number of pleats for 2-way draw/split draw, take total face width divided by 2, look up number of pleats per panel

INFO

- Panels are delivered with approximately 2:1 fullness
- Total finished width = bracket to bracket width + returns
- Returns:
 - on panels/one-way draw, returns will be added to one side only
 - on pairs/two-way draw, returns will be added to both sides
 - returns x 1 = panels
 - returns x 2 = pairs
- For wider panels, add 96" column to the column which provides the additional width needed
- For longer panels, add 12.5% for up to an additional 50", add 25% for up to an additional 100"

INFO

- Panels are delivered with approximately 2:1 fullness
- Total finished width = bracket to bracket width + returns
- Returns:
 - on panels/one-way draw, returns will be added to one side only
 - on pairs/two-way draw, returns will be added to both sides
 - returns x 1 = panels
 - returns x 2 = pairs
- For wider pairs, add 192" column to the column which provides the additional width needed
- For longer panels, add 12.5% for up to an additional 50", add 25% for up to an additional 100"

SURCHARGES

RIBBON BANDING • For ribbon banding, email sales@texton.com

COM • For COM (Customer's Own Material) orders, email sales@texton.com

- Add 15% for Standard Liner upgrade
- Add 25% for Thermal Sateen or Room Darkening Liner upgrade
- Add 30% for Premium Blackout Liner upgrade

INFO

- Our recommendations allow for an approximate 2:1 fullness
- Bottom hem is 4"
- Side hems are 1.5"
- Grommets offered in 3 finishes. Size of outer diameter: 2.5", size of inner diameter: 1.5".
- Only rods and poles 1¼" diameter and less can be used to hang these grommet panels.
- Final length is from top inside diameter of grommet to bottom of panel.

PANELS & TRACK INCLUDED

Soft Wave Fold & Track System available in precise widths

Reference the following to order:
(provide the wall/window area to be covered)

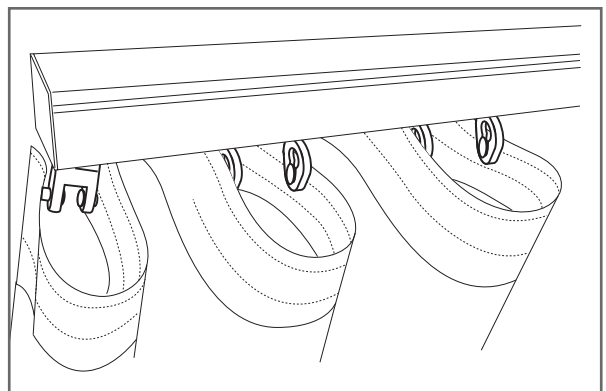

Available in precise widths only, made with 180% fullness (1.8:1 fullness)

Track is included in length and price, cut precisely to the $\frac{1}{2}$ "

- Single panels/one-way draw to cover window widths up to 144"W
- Pair of panels/two-way draw to cover window widths up to 240"W
- Single panels/one-way draw:
 - Min. W: 23" • Min. L: 24"
 - Max. W: 144" • Max. L: 204"
- Pair of panels/two-way draw:
 - Min. W: 36" • Min. L: 24"
 - Max. W: 240" • Max. L: 204"
- To achieve a double track system, order 2 systems - then specify wall or ceiling mount brackets
- If ceiling-mounted double track is needed, use two single ceiling-mounted brackets, one in front of the other.
- 8 $\frac{1}{2}$ " - 9" of projection clearance out from window/wall is needed.
To mount to the two single brackets, allow 3" between brackets so the two window treatments can easily pass each other.
- Standard wands are included for moving panels (see chart on following page)
- Custom length wands also available - cut to the $\frac{1}{2}$ '

Attaching Drapery to Track System

- Metal snap tape is attached to top of panels and snaps into carriers on the track.
- Metal snap tape may be visible at top of drapery, particularly on sheers.
- Note: $\frac{1}{4}$ " light gap exists between top of drapery and track.

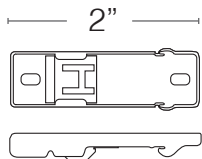

UNLINED PRECISE WIDTH SOFT WAVE FOLD & TRACK SYSTEM

Soft Wave Fold Drapery Track System Bracket Options

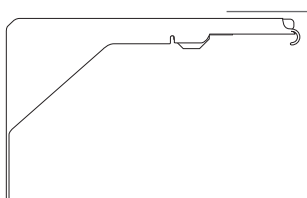

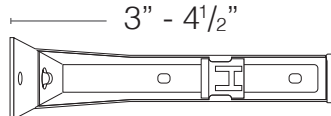

Note wall projection clearances on illustrations below:

Single ceiling-mounted bracket

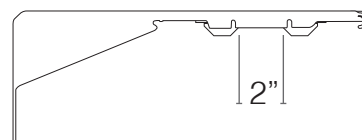

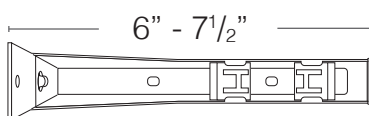

*use 2 for double track effect

Single wall-mounted bracket

Double wall-mounted bracket

*inside track: 2 1/2" - 4",
outside track: 6" - 7 1/2"

INFO

- Pricing based on single track
If double track is needed, order 2 systems
Specify bracket needed: ceiling or wall mount
- Panels are delivered with approximately 1.8:1 fullness (180%)

WIDER PANELS

- For wider one-way panels, add the 144" column to the column that gives you the additional width needed
- Two-way draw panels are not available wider than 240"W

Measure carefully using a steel tape measure to assure accuracy.

Roman Shades

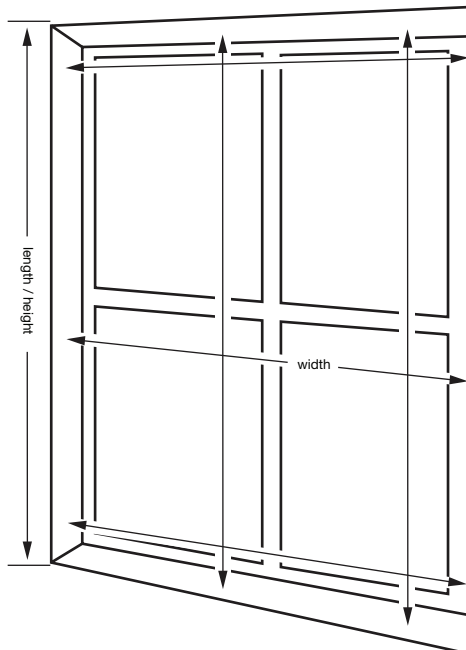

Inside Mount

- The Roman Shade will hang within the window frame providing a clean, built-in look.
- Minimum window depth required: $1\frac{1}{2}$ ".

Measure:

Width – in 3 places (top, middle & bottom) & use the narrowest dimension.

Length – in 3 places (left, center & right) & use the longest dimension.

Outside Mount

- The Roman Shade will hang outside the window frame or molding.
- To be used when there is not enough window depth for an inside mount.
- Mount to surrounding wall, ceiling or window frame/molding
- No minimum window depth required.

Measure: The width & length of window area you want to cover.

- If space allows, we recommend adding $1"-1\frac{1}{2}"$ of width and height to each side of window (2"-3" total) to reduce light penetration from edges of shade.

Drapery Panels

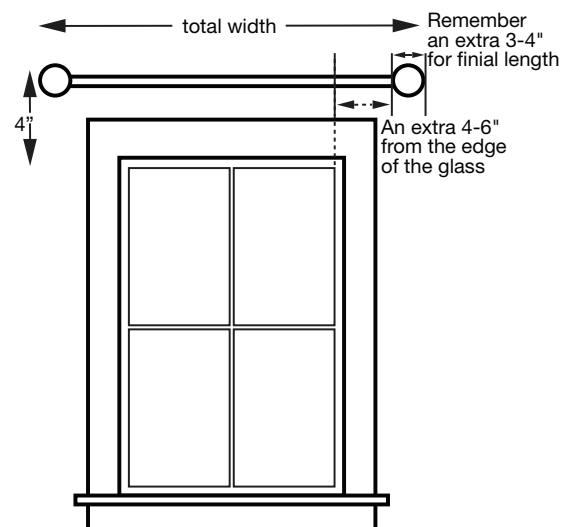

ALL PANELS ARE SOLD AS SINGLE PANELS AND IN PAIRS

- Made in to lengths to the $\frac{1}{2}$ " up to 300"L.

Width:

Measure: The width of the window area you would like to cover.

- Take time to plan your installation and get the measurements correct.
- We recommend adding an additional 4"-6" to each side from the edge of the window glass. This allows the drapery panels, when pulled to their sides, to clear the window allowing more natural light in. It also prevents light gaps at edge of window.
- Consider the basic or decorative hardware you will be using to hang the panels from.
- Finials add another 6-8" (3"-4" for each finial on both ends of the pole) to the total space of window/wall area you'll need.
- Consult our SIZING SOLUTIONS charts for selecting the correct pre-set panel width and number of panels to order.
- Our recommendations allow for fullness that is already built into the panels.

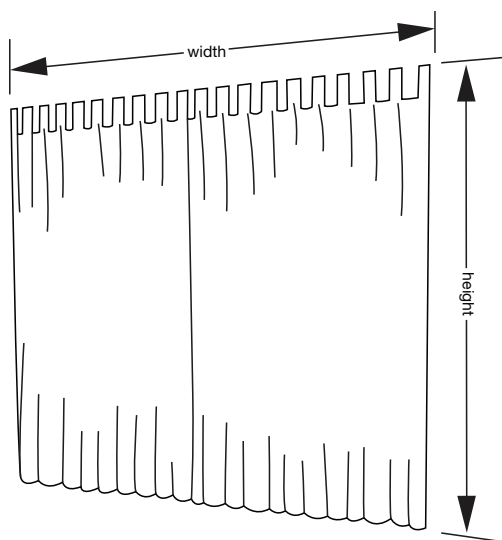

HOW TO MEASURE

Measure carefully using a steel tape measure to assure accuracy.

Length:

- Finished panel length is measured from the top of the drapery panel to the bottom for pinch pleats, or tabs.
- For rod pocket panels, the finished panel length is measured from top of rod pocket to the bottom and does not include the header.
- For grommet panels, the finished panel length is measured from top inside of the grommet to bottom of the panel.
- The finished panel length you provide to the $\frac{1}{2}$ " will be the exact measurement the drapery panel will be made to.
- Special consideration should be given to the additional length gained by hanging the panels from decorative poles & rings.

Sheer Under Treatment Lengths:

- It is recommended to order sheers with NO HEADER when they are being used as an under treatment. It is recommended to order sheers slightly shorter in length than the Drapery Panels they will be mounted under.
- So the sheer under treatment is not visible behind the top & bottom edge of the outer drapery panels, mount sheer drapery hardware 1" lower than the decorative hardware used for the outer panels.
- When hanging, the sheer should be $\frac{1}{2}$ " shorter than the outer panel.

Drapery Panel Length Advice:

- You can specify any length desired to the $\frac{1}{2}$ "
- Floor Length panels should be $\frac{1}{2}$ " above the floor for easy operation.
- Puddle Length panels should have another 6"-10" of length to pool the fabric on the floor.
This length is not recommend for high traffic areas or drapery that needs to be opened and closed often.

- It is recommended to mount the pole approximately 4" above the window frame.
- If the panel is being mounted directly onto a pole through the rod pocket, grommets or tabs, no additional length is added.
- When using rings to attach drapery panel (usually Rod Pockets & Pleated Panels) with rod, please note:

METAL RINGS:

- Eyelet + clip adds 3" of length (so deduct 3" from the panel length)
- Eyelet only adds 2" of length (so deduct 2" from the panel length)

Measure carefully using a steel tape measure to assure accuracy.

Pole Mounted Valances

- Each style has a unique shape & size.
- Refer to each of the specific styles (p.67-71) to determine the number of valances needed.
- As with the Drapery Panels, consideration must be given to the hardware the valances will be hung from.

Board Mounted Valances & Upholstered Cornice Boards

- These styles have different drop lengths available. (Refer to p.72-75)

For Upholstered Cornice Boards:

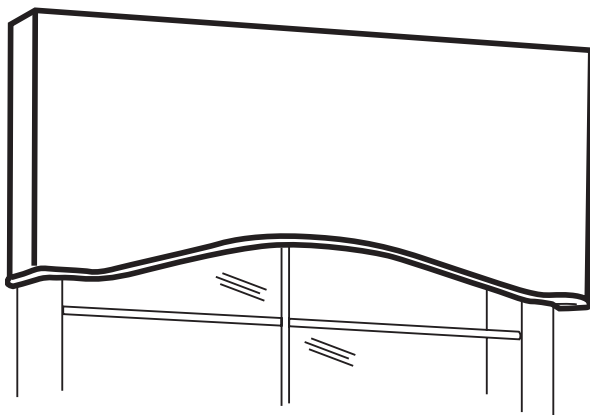

- Add a minimum of 2" to the trim to trim/ window edge to window edge measurement to compensate for the width of the wood sideboards + the fiberfill batting.

EXAMPLE:

For a tight to window frame fit:

If window width is 100" wide add 2".

102" wide outside will be 100" inside the cornice box.

For Board Mounted Valances:

- NO extra inches needed.
- The top wood board used equals the exact width specified. NO wood side boards are used in these styles, fabric hangs off the edge of the top board.
- Then consider adding an additional 1" - 6" to each side for either Board Mounted Valances or Upholstered Cornice Boards over OUTSIDE mounted UNDER TREATMENTS like drapery panels (including the drapery hardware width) or blinds/shades.
- Take that measurement as your total width and then follow the instructions above.

REMINDER:

- 4" returns for mounting over blinds and shades
- 7" returns for mounting over drapery treatments.

Decorative Hardware Poles for Mounting Drapery Panels & Valances

- Measure the window/wall area you want to cover with drapery panels/pole mounted valances.
- We recommend mounting hardware 4" above and 4"-6" beyond each side of the window frame, if space allows.

REMINDER:

Clip rings will add 2"- 4" of length to your panels. Refer back to Drapery Panels: Length section for more details.

LIMITED LIFETIME WARRANTY

The enclosed product is warranted to the original residential retail purchaser as long as the product remains in the original window.

Covered:

Lifetime: Entire product against manufacturing defects (i.e. a flaw in the product design, materials, or workmanship that causes the product to no longer function)

5 years: All fabric

3 years: Operation/Functionality, including but not limited to CCL, ladder cords, lift cords and rings. Including internal cords such as those found in cordless shades

Not Covered:

Normal Wear and Tear

Any product that fails due to:

- abuse • exposure to salt air • improper installation • accident • extraordinary use
- improper operation • alterations • improper cleaning • misapplication
- damage from pests/insects/pets • improper handling • misuse

Costs associated with:

- product removal • transportation to and from the retailer • brand label removal
- product re-measure • incidental or consequential damages • product reinstallation
- shipping

In the event there are multiple blinds/shades in the same room, only the defective blind/shade will be replaced.

To Report Shipping Damage:

If damage occurred during shipping, call and report within 7 calendar days or else you may be denied credit for your damaged product.

To Obtain Service:

If you suspect this product has a manufacturing defect in materials or workmanship:

1. Take a photo of the defect.
2. Email the photo with ORDER # and LINE # to sales@texton.com

Any unauthorized claims will not be accepted.

Warranty Remedy:

THIS SHALL BE YOUR SOLE REMEDY UNDER THIS LIMITED WARRANTY. If this product is found to have a manufacturing defect in materials or workmanship, we will (at our discretion) do one of the following:

- repair the product • replace the product • refund the cost of the product

Colors vary from lot to lot and may not exactly match sample swatch or previous purchases.

Discontinued items or color selections will be replaced with the closest equivalent current product.

YOUR RIGHTS UNDER STATE LAW:

This lifetime limited warranty gives you specific legal rights, and you may have other rights, which vary from state to state. Some states do not allow limitations on how long a warranty lasts, so the above limitations may not apply to you.

No agent, representative, dealer, or unauthorized employee has the authority to increase or alter the obligation of this warranty. This lifetime limited warranty supersedes any previous versions.
