

QUICK GUIDE SOMFY APP

App:

Download the MyLink App. The MyLink App is available on the Apple App store and Google Play

Internet: Wireless Router

The MyLink will work with routers running 2.4 & 5Ghz networks with WEP, WPA2, Open and Mixed Mode Encryption.

Mobile Devices:

iOS device running iOS 7 or higher; Android device running Jellybean or higher.

Product Compatibility:

A MyLink can be used with any Somfy RTS Product.

General MyLink Info:

Each MyLink can control up to 16 individual motorized products or 16 groups of motorized products which provides practical and flexible control options.

Scenes and Timers:

Create timed events and operate multiple motorized applications together to create your preferred ambiance and maximize the benefit that shading systems offer such as energy savings, privacy, glare control, etc.

Scalable:

Use multiple MyLinks together for a whole home control.

Easy to use:

Intuitive plug-in design and on-screen setup wizard allows you to enjoy your MyLink in a few short minutes.

Connected Living:

Always have control of your motorized applications regardless of where you are. Compatible with Control4, Crestron, Savant, Elan, RTI, URC, Brilliant Tech and other automation systems.

Control Somfy powered shades with any Alexa enabled or Google Home device.
